

550W STAINLESS STEEL SUBMERSIBLE CLEAN WATER PUMP VIBAL550A

The 550W stainless steel submersible pump for clean water is the ideal solution for efficient and durable drainage of clean water, perfect for fountains, cisterns, and irrigation systems. With an immersion capacity of up to 7m and a maximum manometric height of 7.5m, it provides excellent performance at medium depths. Its flow rate capacity of 8,500L/h and the ability to handle particles up to 5mm make it efficient for clean water without clogs. Equipped with a 10m cable, the pump offers great flexibility in use. The IPX8 waterproof rating ensures extra protection, making it ideal for long working sessions in demanding environments.

Key features

- > Immersion depth up to 7m and manometric height of 7.5m
- > Maximum particle size of 5mm, ideal for clean water
- > Maximum flow rate of 8,500L/h
- > Equipped with a 10m cable and IPX8 waterproof rating
- > Supports fluid temperatures up to 35°C

Specifications

Body	Stainless Steel
Dimensions	150 x 170 x 280 mm
Float switch	Yes
Max. liquid temperature	35° C
Max. manometric height	7,5 m
Max. particle size	5 mm
Maximum flow rate	8500 L/h
Maximum immersion depth	7 m
Outlet - hose	25 32 mm
Outlet - threaded	1" 1/2"
Packaging dimensions	220 x 165 x 340 mm
Power cord	10 m
Product weight	4 Kg
Rated power	550 W
Supply voltage	230 V 50 Hz
Watertightness	IPX8
Weight with packaging	4,6 Kg
