

CORDLESS ASH VACUUM/BLOWER 20V LI 12L

VIBCASC12SFL20

The cordless ash vacuum cleaner from the EGO range is suitable for cleaning barbecues, fireplaces and stoves. The cordless appliance has a maximum suction power of 9Kpa and is powered by a single battery (2Ah, 4Ah and 6Ah lithium-ion batteries), which can be purchased separately and used on other appliances from the EGO range. Thanks to its lightweight and compact design and carrying handle, it can be transported and stored anywhere. It has the advantage of containing a HEPA filter responsible for filtering all particles, even those that are not visible, contributing to a healthy and breathable environment. The vacuum cleaner also includes a 12-litre tank and a suction hose and metal suction tube. This cordless model makes it possible to feel a greater sense of freedom and flexibility.

Key features

- > 12L STAINLESS STEEL Tank;
- > 20V Battery Slot;
- > HEPA filter included.

Specifications

Airflow	0.6 m ³ /min
Ash maximum temperature	40°C
Compatible batteries	2, 4, 6 Ah
Dimensions	270 x 290 x 285 mm
Filter type	HEPA
Height	320 mm
Length	275 mm
Metal suction tube	230 mm
Motor type	Carbon brushes
Product weight	2.158 kg
Rated power	150W
Suction hose	1m x 35Ø mm
Suction power	9 kPa
Tank capacity	12 L
Type of materials vacuumed	Solids
Voltage	20V
Weight with packaging	2.692 kg
Width	275 mm
