

MULTISTAGE SUBMERSIBLE WATER PUMP FOR CLEAN WATER 1000W VIBSMAL1000

The VITO AGRO 1000W Multistage Submersible Pump for Clean Water is the ideal solution for transporting clean water. With a power of 1000 watts, it ensures excellent and efficient performance, pumping up to 6500 liters per hour. The stainless steel body provides greater durability and resistance, while the adjustable float switch allows for automatic operation, turning the pump on or off based on the water level. Additionally, with a lifting capacity of up to 40 meters, it is perfect for supplying domestic water or irrigation systems. Compact and safe, this pump is a practical and reliable choice for those seeking high performance in clean water pumping.

Key features

- > **Powerful and efficient:** 1000W of power, with the capacity to transport up to 6500L/h.
- > **High elevation:** Lifts water up to 40m, ideal for domestic systems and irrigation.
- > **Stainless steel body:** Durable and corrosion-resistant for greater longevity.
- > **Automatic operation:** Adjustable float switch turns the pump on/off based on water level.
- > **High filtration capacity:** Handles particles up to 1mm, suitable for clean water.
- > **Compact design:** Easy to transport and handle, practical for use in various environments.

Specifications

Dimensions	150 x 440 x 150 mm
Product weight	9,5 kg
Weight with packaging	10,125 kg
IP code	IPX8
Max. manometric height	40 m
Max. particle size	1 mm
Maximum flow rate	6500 L / h
Maximum immersion depth	7 m
Maximum liquid temperature	35°C
Minimum immersion depth	50 mm
Power cord length	10 m
Outlet - threaded	1"
Packaging dimensions	220 x 200x 500mm
Rated power	1000 W
Supply voltage	230V AC 50Hz
