

SUBMERSIBLE WATER PUMP 750W - 1HP

VIBSS750

The VITO 750W submersible sump pump is designed for dirty water drainage in basements, wells, tanks and areas with water accumulation. It features a stainless steel and cast iron body for durability and an adjustable float switch that enables automatic operation based on water level. Suitable for domestic, agricultural and maintenance applications.

Key features

- > Suitable for dirty water drainage
- > Automatic operation with float switch
- > Durable construction
- > Ideal for basements and wells
- > Reliable for regular drainage tasks

Specifications
