

800W STAINLESS STEEL GARDEN JET PUMP

VIBTI800A

The 800W Stainless Steel Garden Jet Pump is the ideal solution for transferring liquids efficiently and quickly. With a power of 800W, it offers a maximum flow rate of 3000L/h, ensuring your transfer tasks are carried out swiftly and effectively. The maximum head height of 40m and immersion depth of 8m make this pump versatile for various environments and needs, whether for drainage, water transfer, or other liquids. Equipped with a 10m electric cable, it provides great reach and flexibility, while the IPX8 waterproof rating ensures water resistance. The pump is designed to operate with liquids at a maximum temperature of 35°C, making it suitable for a wide range of applications. With a 230V/50Hz power supply, it can be easily connected to the electrical grid, making it a practical and efficient choice for various tasks.

Key features

- > 800W Power
- > Maximum flow rate of 3000L/h
- > Maximum head height of 40m and immersion depth of 8m
- > 10m electric cable for greater reach
- > IPX8 waterproof rating
- > Maximum fluid temperature of 35°C
- > Power supply of 230V/50Hz

Specifications

Anti-rust treatment	Yes
Body	Stainless steel and cast iron
Dimensions	170 x 330 x 260 mm
Hose connector thread	1" - 25 mm
Max. liquid temperature	35° C
Max. manometric height	40 m
Max. particle size	1 mm
Maximum flow rate	3000 L/h
Maximum immersion depth	8 m
Packaging dimensions	380 x 250 x 275 mm
Power cord	1,2 m
Product weight	5,8 Kg
Rated power	800 W
Supply voltage	230 V 50 Hz
Watertightness	IPX4
Weight with packaging	6,4 Kg
