

PADDED JACKET ALPHA VICAAL

Alpha V-Spirit padded jacket designed for demanding outdoor work and activities, providing effective protection against cold, wind and rain. Manufactured with high-quality technical materials, it offers water resistance up to 8000 mm on the exterior and breathability up to 800 MVP, ensuring thermal comfort and moisture control. The DWR (Durable Water Repellent) technology allows water to bead off the fabric surface, keeping the body dry even in adverse weather conditions. Features include underarm ventilation zones, durable fastenings, functional pockets and reflective elements for enhanced visibility. A reliable and durable jacket for professional use.
