

ADVENTURE HOODED JACKET VICCADL

The Adventure Hooded Jacket from the V-SPIRIT VITO collection, made from 100% polyester, is the ideal choice for keeping your body warm in low temperatures due to its excellent thermal insulation. Designed to accompany any type of adventure, it adapts easily to different scenarios, from hiking and trekking to cold or damp working environments. With a modern and relaxed design, the Adventure model combines functionality and style, making it indispensable for those who are always on the move. Whether in everyday life, at work or on adventures in nature, this versatile piece is perfect for those who value fashion, performance, and comfort. Water-resistant, effectively protects against light to moderate rain. In addition, the softshell and TPU membrane create a barrier against cold winds, maintaining thermal comfort in any situation. The fabric's lightness provides mobility without compromising heat retention, while the soft touch guarantees all-day comfort.

Key features

- > Breathability and comfort - The lightweight fabric and soft touch provide unrestricted mobility and all-day comfort.
- > Durability - Wear-resistant, it retains its properties even with frequent use.
- > Easy maintenance - Easy to wash, it dries quickly and resists fading, ensuring it looks great for much longer.
- > Functionality and practicality - Detachable and adjustable hood, adaptable to the conditions of the day.
- > Variety of pockets - Two open pockets on the inside; One chest pocket; Two zipped side pockets.
