

## CEMENT GLUE PADDLE MIXER 1800W WITH CASE VIMCC1800

It includes a Ø 140mm mixing paddle that allows you to mix up to 80 litres. It results in a homogeneous and consistent mixture, which is desirable to carry out your work. To get the best results, this machine has a rotation speed dial with 2 rotation intervals, allowing to adjust and control the speed of the mixing paddle according to the material needs throughout the mixing process. Easy to handle thanks to its ergonomic handles, it increases the user's comfort and safety while working. The robustness of this model is guaranteed by the metal gearbox, which gives it greater durability.

### Key features

- > Metal gearbox;
- > Variable speed;
- > ON/OFF switch lock-on button;
- > Speed regulator;
- > Speed control trigge.

### Specifications

Dimensions	<b>210 x 350 x 900 mm</b>
Maximum mixing capacity	<b>80 L</b>
Metal gearbox	<b>Yes</b>
No-load speed - 1st speed	<b>0 - 440 rpm</b>
No-load speed - 2nd speed	<b>0 - 780 rpm</b>
On/off switch lock button	<b>Yes</b>
Packaging dimensions	<b>360 x 420 x 220 mm</b>
Paddle diameter	<b>140 mm</b>
Paddle length	<b>590 mm</b>
Product weight	<b>6,30 Kg</b>
Rated power	<b>1800 W</b>
Sound power level (LWA)	<b>103 dB(A), k = 3</b>
Speeds	<b>2</b>
Spindle thread	<b>M14</b>
Supply voltage	<b>230 V AC ~ 50 Hz</b>
Variable speed	<b>Yes</b>
Weight with packaging	<b>9.35 Kg</b>

### Package Contents

> Mixing paddle: 590x140mm> Replacement pair of carbon brushes> Double open-end spanner SW22> Box BMC.
