

PADDLE MIXER 1800W WITH CASE VIMCC1800

It includes a Ø 140mm mixing paddle that allows you to mix up to 80 litres. It results in a homogeneous and consistent mixture, which is desirable to carry out your work. To get the best results, this machine has a rotation speed dial with 2 rotation intervals, allowing to adjust and control the speed of the mixing paddle according to the material needs throughout the mixing process. Easy to handle thanks to its ergonomic handles, it increases the user's comfort and safety while working. The robustness of this model is guaranteed by the metal gearbox, which gives it greater durability.
