

MODULAR STORAGE TOOL BOX BASE VIMMBASE

VITO's Modular Storage Tool Box Base (VIMMBASE) was designed to offer strength and versatility in terms of transport. This easy-click modular system allows the quick and easy attachment and detachment of the modules in VITO's IRON range. The all-terrain rubber wheels, with 20 cm of diameter, ensure a smooth and stable movement on different types of terrain. The removable telescopic handle allows the height to be adjusted as required during handling. When necessary, it can be removed for an easier storage in smaller spaces. The metal front zips guarantee safety and the IP65 rating provides security and protection for its interior. With a capacity of up to 55 litres and a maximum load of up to 70 kg, this case is the solution for rigorous professionals who handle heavy loads and want a versatile, reliable and durable transport solution. The generous dimensions of 580 x 480 x 660 mm guarantee enough space to store work tools, making it the perfect choice for the most rigorous professionals to easily, practically and efficiently store, organise and transport their tools.
