

HEATING TORCH WITH LEVER

VIMPD30

Heating torch with lever and flame regulation. Is suitable for application on asphalt fabrics, pickling, painting. Maximum temperature of 1850°C using butane gas.

Key features

- > Heating torch with lever, suitable for applying asphalt shingles, pickling, painting, etc.
- > Localised heating.
- > Flame regulation.
- > Maximum temperature 1850°C.
- > Type of gas: Butane

Specifications

Consumption	820 g/h
Diameter	30 mm
Flame regulation	Yes
Lighter/trigger function	Yes
Localised heating	Yes
Maximum temperature	1850°C
Power	11,5 kW
Suitable for	Application on asphalt fabrics, pickling, painting etc
Type of gas	Butane
