

INSOLES INWALK

VIP3537

INWALK insole is an essential part of any comfortable shoe. Designed in high-density polyurethane and with anti-shock reinforcement on the heel, it helps to reduce the effect of fatigue and to prevent various types of pathologies. This anti-static insole is suitable for all types of safety footwear, from 35 to 47 EU size, and can be cut and adjusted to each specific size.

Key features

- > - Anti-bacterial properties;
- > - Comfort massaging;
- > - High density polyurethane;
- > - Anti-shock reinforced;
- > - High-density for comfort.
