

VERTICAL BANDSAW 350W

VISFV350

VITO's 350W Vertical Band Saw is a compact tool, ideal for precise cuts in wood. With 350W of power and weighing 18kg, this bandsaw is designed to be mounted on a worktop. The blade has a cutting width of 195mm and a maximum cutting height of 90mm, making it possible to work with distinct types of wood pieces. Equipped with a dust and chip extraction outlet, it keeps work and the working environment clean and safe. Easy access to the blade makes changing and adjusting it simple and quick, and the safety switch adds extra protection during use.

Key features

- > **Precise cuts:** 350W of power for detailed cuts in wood.
- > **Compact:** Designed to be attached to a worktop, taking up less space.
- > **Increased security:** It includes a safety switch and a dust and chip extraction outlet, creating a clean and safe working environment.
- > **Quick and practical blade replacement:** Easy access to the blade allows you to replace it and adjust it in a simple and efficient way, optimising workflow.
- > **Versatility:** 195mm cutting width and 90mm cutting height, ideal for a variety of projects.
