

SAFETY SHOE V-FORCE

VISVF37

VITO's new V-FORCE S1P safety footwear offers superior protection and comfort for a variety of work environments. Whether it's in warehouses, industries, workshops or other locations, V-FORCE is ideal for ensuring the safety and well-being of professionals. The midsole is made from aramid synthetic fibre, known for its resistance, durability and flexibility. The upper combines suede leather and fabric, offering a modern look and excellent breathability. The composite toecap protects against impacts and compressions, while the aramid fibre midsole offers perforation resistance, ensuring that your feet are always safe.
