

LIFT TIG WELDING TORCH FOR INVERTER (9.2MM) VITLTIG92

The Lift TIG Torch VITLTIG92 delivers stability, accuracy and professional results for TIG welding applications. Its slim 9.2 mm head provides greater control and manoeuvrability, making it ideal for detailed and refined welding tasks. Compatible with VII150A, VII170 and VII200B machines, it supports electrodes from 1.6 to 2.4 mm. The 3-metre cable allows excellent workspace mobility. Built for durability, this torch ensures reliability under frequent or intensive use.

Key features

- > Compatible with VII150A, VII170 and VII200B.
- > 9.2 mm compact diameter for high precision.
- > Works with 1.6 / 2.0 / 2.4 mm electrodes.
- > 3 m cable for extended reach.
- > Durable design for professional TIG welding.

Specifications

Compatible with	VII150A, VII170 and VII200B
Electrode length	1,6 ; 2 e 2,4mm
Handle	3m
