

BRUSHLESS 16.8V PRUNING SHEARS, CUT UP TO 32MM, WITH 2 BATTERIES AND CHARGER

VITPB16832

Battery-powered pruning shears, perfect for orchards and gardens. Equipped with high-quality blades for precise cuts up to 32mm. Lightweight, comfortable, and practical, reducing fatigue and tension in hands and arms. The "Brushless" motor provides durability. The progressive cutting system increases freedom of movement. Includes a safety system that blocks cutting when in contact with the skin. The display shows cuts, battery charge level, and errors in alphanumeric format. Ergonomic handle with rubber applications. Comes with a dual charger for 2 batteries.

Key features

- > Brushless motor;
- > Display showing the number of cuts made;
- > Display showing the battery charging status;
- > Display identifying errors (see instruction manual);
- > 2 opening modes (Ø15mm/Ø32mm);
- > High durability blade; Audible activation signals;
- > Ideal for pruning vines, orchards, shrubs, small trees and for cutting twigs (gardens).
- > Comes with 2 batteries and a dual charger.

Specifications

Battery capacity	2.5 Ah
Charger autonomy	8 h (4h x 2 BAT)
Charging time	2 h
Dimensions	390 x 50 x 120 mm
Engine	Brushless
Maximum cutting diameter	32 mm
Product weight	1 kg
Sound power level (LWA)	84 dB
Sound pressure level (LPA)	73 dB
Voltage	16,8V DC
